2015

Wisconsin Police Forum report released with proposed conceptual model for adult psychiatric crisis services system

2019

Joint Venture Task Force formed

2022

# PROJECT OVERVIEW

#### PROJECT:

Community engagement project to get input, aspirations, and insights on important topics - to fulfill our goal of developing community-informed programs and services.

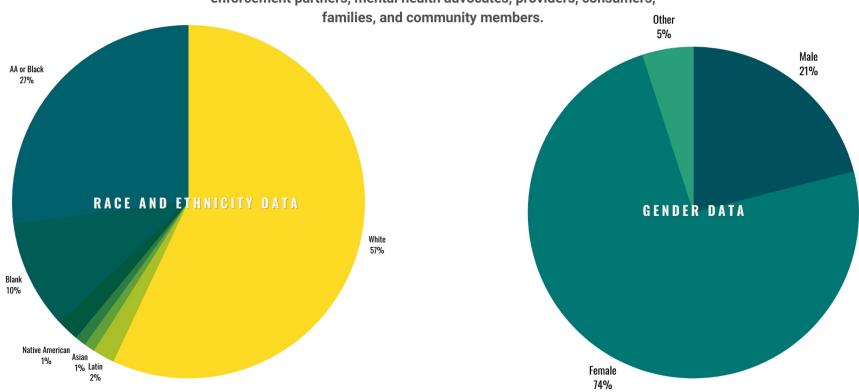

#### GOALS:

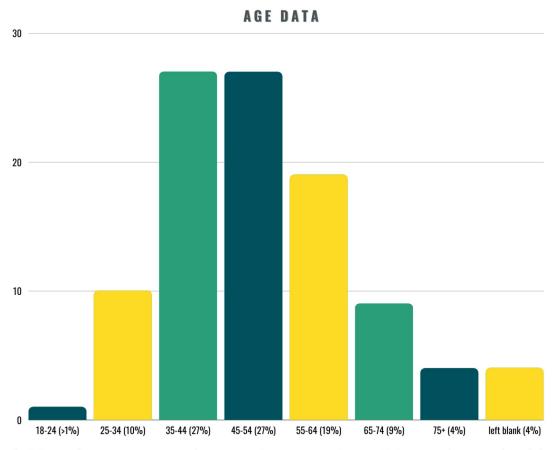

- To educate the community and build awareness of the psychiatric crisis service redesign process and the programs and services BHD continues to offer.
- To gather systems-level and specific element input from diverse key stakeholders.
- To use stakeholder input to redesign the continuum of psychiatric crisis services that are available to Milwaukee County residents.

# **PARTICIPANTS**

144 key behavioral health stakeholders including BHD staff, law enforcement partners, mental health advocates, providers, consumers,

The data on gender, ethnicity and age represents only community conversation participants who completed the optional post-survey.

### PROJECT STRATEGY

- 90-minute Community Conversations for 15 to 20 participants with targeted questions asked by trained facilitators from the Zeidler Group.
- Pre- and Post- Community Conversation Surveys to assess participants' confidence that psych crisis services will continue, their understanding of the psychiatric crisis redesign process and their awareness of what psychiatric crisis services are available to the community.
- Online Stakeholder Surveys to get inputs from stakeholders who were not able to attend community conversations. The survey questions were the same as the community conversation questions.

#### **PRE & POST COMMUNITY CONVERSATION SURVEY**

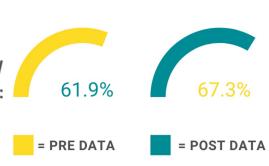

I feel that psychiatric crisis services will continue to benefit the community:

I have a clear understanding of the changes being made to psychiatric crisis services:

I know which psychiatric crisis services are currently available to the community:

# I

1 Access to Services

2 Lack of Integration or Communication

3 Lack of Staff and Services

- Knowledgeable CRC staff
- Services are collaborative with other community agencies such as law enforcement
- CART follows national best practices

1 Access to Services 2 Educational Services

3 Lack of Diversity

- Knowledgeable crisis services and other staff who are approachable
- Other community services such as
   Disability Rights Wisconsin and NAMI
   provide good resources and work well
   with families in their time of need

1 Access to Services 2 Standards of Care

Mental Health Staff and Institutional Inconsistencies

- Quick response time by the CART,
   Crisis Care Managers, Crisis Mobile
   Teams and Access Clinic
- Community collaboration and BHD's partnership with law enforcement partners benefits clients

# MENTAL HEALTH

1 Access to Services 2 Lack of Needed Services and Health Insurance

3
Lack of Diverse
Providers and
Resources Available
to the Community

- Crisis services provides a safe place for clients and they have excellent de-escalation and stabilization care
- Peer Support Specialists make a difference in the standard of care for clients and their families

# SOLUTIONS

- Increase Accessibility through outreach, transportation assistance, hiring interpreters, expanding telehealth, providing support for uninsured clients and locating facilities closer to the communities being served
- Staffing additional training for staff, increase diversity and cultural competency of staff and hire more psychiatrists, psychologists, psychotherapists, nurse practitioners and peers, with a focus on professionals of color
- **Services** alternative crisis procedures, funding for proactive programs, family-focused approach, additional programs to deter the need for crisis services and/or police involvement and 3rd shift Crisis Mobile Team hours
- *Training Programs* to educate clients on services, train police on crisis services and de-escalation and increase the cultural competency of providers
- Better Standards of Care improved communication and collaboration with stakeholders, community campaigns to destigmatize mental health and increasing transparency, consistency, and accountability
