What is Wraparound?

- Vision
- Mission
- Process / Practice Model
- Continuum of care
- When to Refer
- Options Counseling
- Other resources

Vision

To help build healthy and strong communities by enhancing children and families' ability to meet life's challenges and to foster resiliency and hope for a better future.

Mission

1. To serve each youth and family with respect and dignity acknowledging their strengths, needs and preferences.
2. To partner with the agencies that work with families to create a coordinated, holistic plan for a better life.
3. To support youth and their families to remain safely in their homes and communities.
4. To provide quality care that is culturally responsive to the diverse needs of the families we serve.
5. To provide leadership in creating lasting resources to promote the health and well being of families in their communities.

Statement of purpose: To partner with families and communities to join collective expertise and resilience to strengthen individuals, homes, and neighborhoods.

The 4 H's of Wraparound Process

Hello

The process of engagement and continued efforts to partner with the family and discover who they are and what they desire, and building a team of supports to help meet their needs.

Help

The process of facilitating the child and family team to plan, create, implement, and evaluate a plan of care that involves identifying strengths, needs, and strategies to achieve the family's vision of success.

Healing

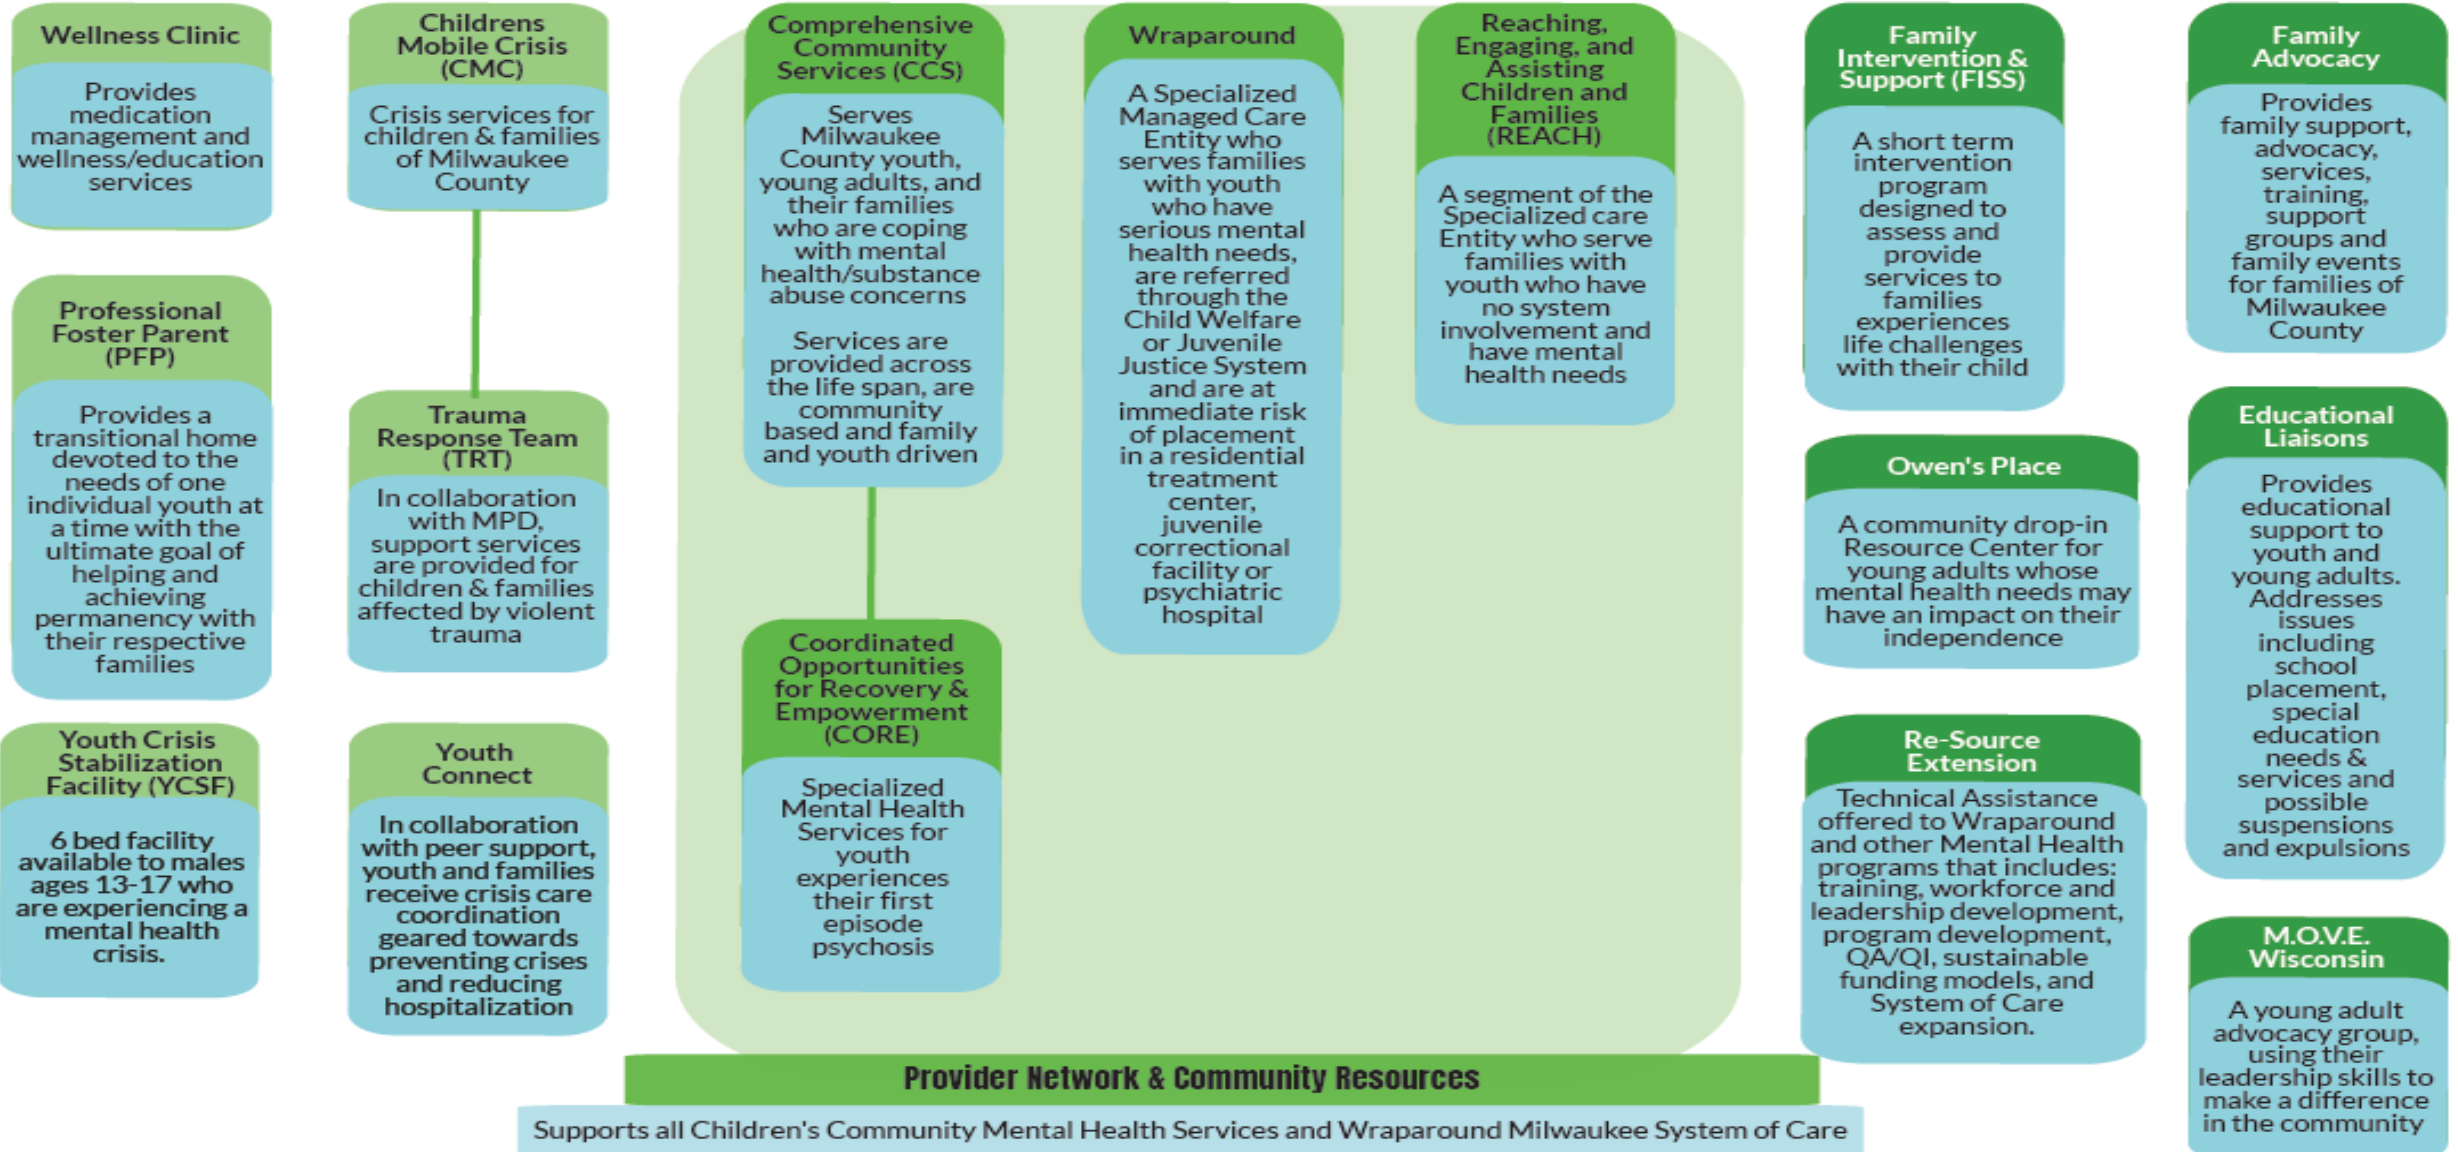

The process of facilitating sustainable interventions through empowerment, involvement of natural and informal supports, and use of community resources. Healing involves assessing progress toward meeting needs, adjusting interventions to sustain progress and on-going preparation for transition out of care.

Hope

The process of executing a transition out of care based on resilience, sustainable supports and resources, task-shifting, and long-term planning to meet on-going and future needs. Hope is a celebration of success and healing and includes a thoughtful good-bye to honor the relationships built with formal supports and resources.

Youth
Connect

When should a youth be referred?

- Treatment history, medication in the past or currently.
- Does the youth have a diagnosis or is someone familiar with the child wondering about a diagnosis?
- The family is having a hard time connecting to resources and services.
- A family member or another youth in the home may benefit from support.
- Concerns or behaviors in school, home and/or the community.
